- Developer tools: Git,VS CODE,Visual Studio,Sublime Text-3,PYCharm
- Soft Skills: Leadership, Event Management, Time Management

Projects

- A FUNCTIONAL TODO LIST APP: I created a fully functional todo web app where we can update delete and add certain tasks A user can login to the system and add some tasks , edit their tasks, delete there tasks and make a completion mark of their task If not a previous user he/she can register in the registration form created by me and if he/she want to logout they can easily logout from the system Advantage of creating this app is that ,the functionality is made with Django class based views which is really powerful than function based views.

  TECH STACKS USED : HTML ,CSS , FLEXBOX, DJANGO3 AND SQLITE3(PRE POPULATED)

- TRAVEL BOOKING WEBSITE FROM SCRATCH: I created a travel booking website where I made a interactive frontend section of Home , Contact and Destinations, Login ,Registrations I also used a user authentication system where a user(existing) can easily login in the system If not a previous user he/she can create an account or to register in the website and can see the desired location

  TECH STACKS USED: DJANGO3 , HTML,CSS, JAVASCRIPT(BASICS), POSTGRESQL
